

The **RWA** wall canopy

 Robinhood

The contemporary square-styled rangehood

Robinhood RWA 900/1200 Wall Canopy

- Sleek design adds style to your kitchen**
 The clean lines of this stylish canopy rangehood in stainless steel and glass will be a design feature in your kitchen.
- Three-speed extraction with timer function**
 The powerful extraction fan can be set to high, medium or low to suit the type of cooking you're doing. A timer function can be set to automatically turn the rangehood off after 10 minutes.
- Capacitive touch controls**
 Backlit touch-screen controls with a green LED display are easy to view and use. The control panel is completely flat and smooth making cleaning a simple wipe over.
- Dimmable lights with separate switch**
 Fluorescent lighting provides outstanding illumination and the dimming function allows you to select the right level of light for cooking, or dim it down and create mood lighting if you choose.
- Automatic filter cleaning reminder**
 Multi-layered micromesh filters trap grease effectively. They're simple to remove and are easily cleaned in the dishwasher. You can set a special reminder function to alert you when it's time to clean the filters. If you are recirculating, this function will tell you when it's time to replace the charcoal filters.
- Recirculation if you can't duct**
 In situations where ducting isn't possible, this rangehood can be fitted with charcoal filters that cleanse the air effectively before returning it to the kitchen.
- Turns off if the worst happens**
 If you have a cooking disaster, and something catches fire, the rangehood automatically switches off to prevent flames and sparks being sucked into the ducting or ceiling.

Product incorporates a thermal overload function that senses extreme heat and disconnects power to the motor temporarily.

Extraction	Gross Airflow: Up to 1048m ³ per hour extraction power.* Net Airflow: Up to 840m ³ per hour extraction power. <small>*The airflow figures are calculated to the IEC61591 standard and includes a 10% tolerance due to motor performance variations.</small>
Finish	Stainless steel and glass.
Lighting	Fluorescent lighting.
Filter	Multi-layered micromesh. Dishwasher safe.
