

The **RWH** wall canopy

 Robinhood

# The powerful attraction of major extraction

## Robinhood RWH 600/900 Wall Canopy

- Powerful fan captures steam, smoke and smells**  
 With up to 850m<sup>3</sup> per hour of air extraction, the Robinhood RWH has the power to keep your kitchen smelling sweet.
  - Electronic switches**  
 Three-speed electronic switches let you select the fan strength you need – low strength for omelettes; half strength for steaming or boiling; full strength for stir fries or curry.
  - Recirculation if you can't duct**  
 In situations where ducting isn't possible, this rangehood can be fitted with charcoal filters that cleanse the air effectively before returning it to the kitchen.
  - Classic design for easy cleaning**  
 Simple, angular styling makes cleaning easy. High quality stainless steel and fingertip controls need only a wipe with a damp cloth.
  - Halogen lighting**  
 Cooking area is efficiently illuminated with two 20 watt halogen lamps. Lamps are quick and easy to replace.
  - Micromesh grease filters**  
 Multi-layered micromesh filters trap grease effectively. They're simple to remove and are easily maintained with a regular clean in the dishwasher.
  - Turns off if the worst happens**  
 If you have a cooking disaster and something catches fire, the thermal overload function senses extreme heat and temporarily disconnects power to the motor. This action prevents flames and sparks being sucked into the ducting or ceiling.
- Product incorporates a thermal overload function that senses extreme heat and disconnects power to the motor temporarily.*
