

Description: **ROBINHOOD COMPACT CANOPY**  
 Model Number: **RCB2AH6WH, RCB2AH6SS, RCB2AH9WH, RC2AHB9SS**

## Typical design

## Features and benefits

- **High performance extraction fan**  
 High performance extraction fan rapidly removes steam, smoke and cooking smells from your kitchen. Two-speed switch lets you select the fan strength you need – half strength for steamed vegetables; full strength for stir fries.
- **Halogen lamps**  
 50 watt halogen lamps illuminate the entire cooking surface. Lamps are quick and easy to replace.
- **Multi-layered micromesh filters**  
 Multi-layered micromesh filters effectively trap grease. They're simple to remove and are easily maintained with a regular clean in the dishwasher.
- **Various installation options**  
 This rangehood can be installed to be totally visible or can be built into a cupboard above the cook top.
- **Rectilinear design**  
 Simple styling makes cleaning easy. High quality stainless or powder coated steel and the fingertip controls are easy to clean with a damp cloth.
- **Thermal overload switch**  
 Thermal overload function that senses extreme heat and disconnects power to the motor temporarily. If you have a cooking disaster, and something catches fire, the rangehood automatically switches off to prevent flames and sparks being sucked into the ducting or ceiling. \*
- **Recirculation option**  
 In situations where ducting isn't possible, your rangehood can be fitted with charcoal filters that effectively cleanse the air before returning it to the kitchen.
